

Adurio is the one of the leading software development companies in India. They are best known for their iPhone apps development services. With 10+ years of iPhone app development experience, they have developed some successful apps like Fetchit, Bigger Pocket, and Minute Genie. Adurio has now set its eyes on iPhones and iPads app development with help from the new A9 chip in Apple's latest iPhone models. Adurio is now looking forward to taking advantage of all that power by successfully developing apps for Apple devices with the computing performance boost it provides. Adurio has the expertise to develop the most advanced iPhone apps. Their software development team comprises experts with full awareness of iPhone's operating system and its advanced features, which include TouchID, secure enclave, Apple Pay, sensors like GPS, Accelerometer etc. They have got all the necessary tools and technologies for developing iPhone apps with high interactive user experience. This includes the latest MVP technology that allows these apps to process high-performance data in real time with minimal battery consumption. Adurio has long been known as one of the most competitive app development companies in India. Now it is set to display its innovative prowess in mobile phone app development with its new iPhone apps development services. Adurio now offers iPhone app development services for all the new models of Apple devices including iPhone 7, iPhone 7 Plus, Apple Watch, iPad Air 2, iPhone 6S, iPad Mini 4 and the recently released Apple TV. The company also provides iPhone apps development services for Apple's 3rd generation iPhones including iPhone 5S, iPhone 5C & iPad. Since 2008 Adurio has been producing top-notch mobile apps that are delivering to its customers high-quality solutions that are customized according to their requirements. If you are searching for the right software development company that can help you deliver your untapped potential with innovative mobile apps then look no further than Adurio. Some of Adurio's mobile applications are MyAd, one of the most successful iPhone apps in the Indian mobile space. Fetchit, a mobile app that assists people to organize their piles of old paper documents, Minute Genie, a mobile app that helps people to convert their time spent on phone calls into minutes by unlocking locked minutes on prepaid numbers. Bigger Pocket is another one of Adurio's highly effective iPhone apps. This allows users to send images to their respective friends for free once they have selected their images using the Bigger Pocket app. For iPhone app development or any other iPhone app related services, contact Adurio.

Adurio's clients include some of the leading Fortune 500 companies in different industries. They include • National Association of Realtors (NAR) for their annual convention at Las Vegas in July 2011. The main aim of this event was to spread awareness about Realtor's services among the people across the US. The app was used to invite the participants, send reminders about the event and its important dates etc. The App launched by Adurio at NAR was highly rated by its users and is still popular among them even today because of its efficiency and high performance standards.
